Please note that in the third from the last measure, the "A7th" and the "B-4" are located a little to the right of where they should be. I think this is the result of a software limitation (the only one I have found so far); or it might be that I have more to learn about the software. Anyway, both the "A7th" and the "B-4" should be located more to the left, at the beginning of the measure.
